USF System Hosts Tampa Bay STEM Summit Addressing Growing STEM Skills Gap and Workforce Needs

THINK PARTNERSHIPS... To ensure Florida is building the skilled workforce to fill the abundance of available jobs in science, technology, engineering and math, the USF System this week hosted a STEM Summit at the Center for Advanced Medical Learning and Simulation in downtown Tampa.

THINK TALENT... The event included a variety of panelists from business and higher education, including keynote speaker Dr. James Wynne from the IBM Watson Research Center in New York, Mindy Grossman, CEO and director of HSN, and State University System Chancellor Marshall Criser III. Among other topics, the panel discussed the role of business and education partnerships in filling the STEM pipeline.

THINK WORKFORCE... Florida's universities are making strides to close the talent gap by providing the skills training that enables students to transition successfully into the workforce.

THINK FLORIDA... A Higher Degree for Business.

Think Florida: A Higher Degree for Business is a unified State University System campaign designed to build synergies between Florida's 12 public universities and the business community. The campaign's primary focuses are talent, research and partnerships.
