The changes for the Human Resources survey component fall into two categories:

- **New occupational categories for all institutions** due to the required alignment of the HR component with the 2010 Standard Occupational Classification (SOC). These new occupational categories will replace the primary function/occupational activity categories currently used for HR reporting. These changes have been approved by the Office for Management and Budget (OMB) for implementation in the 2012-13 IPEDS data collection. Institutions should begin to prepare to report using the new categories. **Each job at the institution will need to be categorized according to the 2010 SOC in order to report HR data in 2012-13.**

- **Changes for degree-granting institutions** that have been approved by the Office for Management and Budget (OMB) for implementation in the 2012-13 IPEDS data collection. These were changes that were suggested by the IPEDS Technical Review Panel (TRP) and adopted.

### Human Resources (all institutions) 2012-13

Adopt new occupational categories to replace the current primary function/occupational activity categories.

The alignment with the 2010 Standard Occupational Categories (SOC) requires the adoption of new occupational categories for reporting on the HR survey component. However, the currently used categories **Primarily Instruction, Instruction Combined with Research and/or Public Service, Primarily Research, and Primarily Public Service** will continue to be used, and will not change, except that “primarily” has been dropped from the category name. The professional/non-professional terminology will no longer be used.

NCES has received approval from OMB to use the following categories:

- Management Occupations
- Business and Financial Operations Occupations
- Computer, Engineering, and Science Occupations
- Community Service, Legal, Arts, and Media Occupations
- **Instruction**
- **Instruction combined with Research and/or Public Service**
- **Research**
- **Public Service**
- Graduate Assistants – Teaching
- Library and Non-postsecondary Teaching Occupations
  - Archivists, Curators, and Museum Technicians
  - Librarians
  - Library Technicians
  - Non-postsecondary Teaching Occupations
- Healthcare Practitioners and Technical Occupations
- Service Occupations
- Sales and Related Occupations
- Office and Administrative Support Occupations

---

2010 SOC
- Natural Resources, Construction, and Maintenance Occupations
- Production, Transportation, and Material Moving Occupations

### Human Resources (all degree-granting institutions) 2012-13

Add a screening question to determine if an institution has graduate assistants.  

Revise the Primarily Instruction occupational category so that data in the EAP section (Part A) are reported for three subcategories:

- Instruction (formerly called Primarily Instruction)
  - Exclusively credit
  - Exclusively not-for-credit
  - Combination credit/not-for-credit

Make the following revisions to the Salaries section (Part E):

- Eliminate the contract length differentiation from the survey screens.
- Add an additional column to the survey screen after the salary outlays column to collect the number of months covered by those salary outlays. (This number will be used to calculate a weighted monthly average salary.)

Note: To assist data reporters in determining the number of hours covered, a worksheet will be provided in the data collection system that collects counts of staff on 9-month contracts, 10-month contracts, 11-month contracts, and 12-month contracts, by gender and academic rank. For each gender and academic rank category, the system would then calculate: (1) the total number of staff reported (i.e., the sum of the values entered for each contract length), and (2) the total number of months covered (i.e., the sum of the staff reported for each contract length multiplied by the number of months in the contract).

Add an additional screen to the Salaries section (Part E), to be displayed immediately after the salary outlays screen for full-time instructional staff, to collect salary outlays for full-time non-instructional staff by occupational category. These totals will not be disaggregated by race/ethnicity or gender.

**Note:** The alignment with the 2010 Standard Occupational Categories (SOC) requires the adoption of new occupational categories for reporting on the HR survey component. If approved, the new occupational categories for which salary outlays will be collected will be:

- Management Occupations
- Business and Financial Operations Occupations
- Computer, Engineering, and Science Occupations
- Community Service, Legal, Arts, and Media Occupations
- Research (formerly called Primarily Research)
- Public Service (formerly called Primarily Public Service)
- Library and Non-postsecondary Teaching Occupations
- Healthcare Practitioners and Technical Occupations
- Service Occupations
- Sales and Related Occupations
- Office and Administrative Support Occupations
- Natural Resources, Construction, and Maintenance Occupations

### Human Resources (degree-granting institutions with 15+ FT staff) 2012-13

To streamline data collection across component sections:

- Eliminate full-time non-instructional research and public service staff from Part G reporting in the *Fall Staff* section, better aligning this section with the Salaries section, which collects data exclusively on instructional staff.
- Add items to Part I of the *Fall Staff* section (the headcount of full-time non-instructional staff) to include the research and public service categories that were eliminated from reporting in Part G.

Add a screening question to determine if the institution has a tenure system.

Add the following non-tenure track contract faculty categories to the *Fall Staff* section (Part G):

- Multi-year contract
- Annual contract
- Less than annual contract
- Without faculty status
IPEDS - 2012-2013 Human Resources Survey Component and the 2010 Standard Occupational Classification

Description:
Topic ID: 10-15
Initiator: IPEDS
Affects: Multiple

The IPEDS HR survey component uses the Standard Occupational Classification (SOC) system to assist institutions in classifying employees for IPEDS reporting purposes. The SOC is a system used by Federal statistical agencies to classify workers and jobs into occupational categories for the purpose of collecting, calculating, analyzing, or disseminating data. In 2010, an updated version of the SOC system (http://www.bls.gov/soc/) was released. Consequently, the IPEDS HR survey must be revised to incorporate the 2010 SOC information.

The current HR instructions map approximately 140 of the 821 SOC occupational categories to the following eleven primary functions/occupational activities in the IPEDS HR survey:
- Primarily instruction
- Primarily research
- Graduate assistants
- Other professional (support/service)
- Clerical and secretarial
- Service/Maintenance

Although there were no major changes to the 2010 SOC, the primary functions/occupational activities in the IPEDS HR survey must be redefined to align with an approved aggregation scheme created from the 23 major groups in the 2010 SOC. (In April 2011, the SOC Policy Committee approved the aggregation scheme proposed for IPEDS HR reporting, shown in the table below.) Additionally, NCES must give guidance concerning reporting all SOC occupational categories, not just the subset that is more commonly found on campuses.

There will be a loss of trend data with the adoption of the new categories. Currently, the Other professional, Technical and paraprofessional, and Service/Maintenance categories span SOC major categories, splitting them by skill level, and assigning the more skilled occupations to the Other professional category, and the less skilled occupations to the Technical and paraprofessional and Service/Maintenance categories. This is no longer permitted. HR aggregations must now be based on the SOC major categories, which are discipline focused instead of being based on skill levels.

The IPEDS Occupational Categories that will be implemented in 2012-13 Human Resources reporting are shown below. The first column shows the occupational categories that will be reported in IPEDS starting in 2012-13, incorporating the 2010 SOC. The second column shows the SOC major and minor groups that make up the IPEDS categories.

General – First Year First Professional Flag

Description:  Update Data Dictionary
Topic ID:        50-20
Initiator:       Board-IRM
Affects:        SIF/SIFP/SIFD/HTD/SFA

Update the definition and coding instructions for element 01269- First Year First Professional Flag to reflect doctoral professional instead of first professional.

FINAL DISPOSITION:
Data dictionary will be updated to reflect doctoral professional, which includes doctorate in physical therapy and nursing practice.
General – SCD/EMPL Salary Limits

Description: New level 9 edit
Topic ID: 50-30
Initiator: Board-IRM
Affects: SCD/EMPL

Add edits to enforce the salary limits set in statute (1012.975 and 1012.976) for university presidents and administrative employees. This cap does not apply to university teaching faculty, medical school faculty or staff. How can we identify university presidents?

FINAL DISPOSITION:
An edit will be added to look at salary limit for University Presidents (should be coded as P0 in 01409-Administrative Code).

Edit for administrative employees needs more research. Get the list from budget office of who is considered an administrator.
Admissions – Requirements Met

Description: New level 9 edit
Topic ID: 100-10
Initiator: Board-IRM
Affects: ADM

Add an edit that says if the admission scale requirement is reported as met then the reported test scores should all be greater than or equal to the minimum required standards.

FINAL DISPOSITION:
Edit will be added and will take GPA into consideration.
Admissions – Final Admission Action

Description: Modify edit 5359
Topic ID: 100-20
Initiator: Board-IRM
Affects: ADM

Diag 5359: Final_Adm_Action = A is invalid when Fee_Class_Res = F, T, N and Stu_Class_Level = L and Stu_Typ = J,U,B,E and GPA_high_school < 2.5 or GPA_College < 2 depending on Stu_Typ and a valid exception_typ (F for Stu_Type B,E; T,M,G for Stu_Typ J,U) does not exist

This edit currently looks at students that are admitted. We would like to modify this edit to look at admitted and registered.

FINAL DISPOSITION:
Edit will be updated as described above.
Admissions – Student Classification Level

Description: Student Classification Level
Topic ID: 100-30
Initiator: Board-IRM
Affects: ADM

Does the 36 hour rule still apply for the classification of Advanced graduate?

Data Dictionary Description:
The categorization of the student's progress at the beginning of the term toward a specific degree or certificate as it applies to allocation of resources within the State University System. These categories are:

**Advanced Graduate**—a graduate student who has been formally admitted to a recognized Doctoral or Post-Masters's degree program and who has (accumulated 36 or more credit hours toward his or her degree program or has a master's degree). Credit hours counted for this classification include (a) credit hours earned applicable to the current program and (b) credit hours earned prior to the current program but accepted by the university as applicable toward the student's current degree program.

**Beginning Graduate**—a graduate student who has been formally admitted to a graduate degree program and is not an advanced graduate student.

**Upper Division**—a student who has earned 60 or more credit hours or has an associate of arts degree and has (1) completed requirements in English and mathematics as prescribed by FAC 6A-10.030 and (2) has presented appropriate scores on the College-Level Academic Skills Test (CLAST) as required by FS 1008.29: or is working toward an additional baccalaureate degree.

**Lower Division**—a student who has earned less than 60 credit hours, or a student who has not been admitted to the upper division. Unclassified—a student not admitted to a degree program.

**FINAL DISPOSITION:**
Remove 36 hour rule. Doctoral students will be classified as advanced grad regardless of hours to better align student classification with course classification.

Hours to Degree – Calculation of Excess Hours

Description: Calculation of Excess Hours
Topic ID: 200-10
Initiator: Board-IRM
Affects: HTD

The calculations of Excess Hours needs to be modified to align with statute 1009.286

**Florida Statute 1009.286** defines “excess hours” as credit hours that exceed the completion requirements for a baccalaureate degree program at State universities. Specifically, undergraduate students enrolling for the first time at a State University during any of the following three periods will be subject to the corresponding excess hours surcharge:

- **Fall Semester 2009 – Summer 2011** admits will pay 1.5 times the tuition rate for each credit hour either beyond 144 for students in a 120-hour degree program or 120% in excess of the hours required.

- **Fall Semester 2011 – Summer 2012** admits will pay double the tuition rate for each credit hour either beyond 138 for students in a 120-hour degree program or 115% in excess of the hours required.

- **Fall Semester 2012 and beyond** admits will pay double the tuition rate for each credit hour either beyond 132 for students in a 120-hour degree program or 110% in excess of the hours required.

The law provides for the following exceptions, in which instance the excess hours surcharge will be waived for additional college coursework taken:

1. Articulated accelerated credit (e.g. Advance Placement, International Baccalaureate, CLEP, Dual Enrollment, etc.)
2. Internship credit
3. Certification/Recertification credit (e.g. teacher, nurses, etc.) and certificate program credits
4. Credits withdrawn due to medical or personal hardship
5. Credits taken by active-duty military personnel
6. Credits required to achieve a dual major (NOTE: the law only exempts those hours “required” to obtain a dual major, rather than every credit hour a dual major student chooses to enroll in.)
7. Remedial and English as a Second Language (ESOL) credit
8. Military Science credits in Reserve Officers Training Corps (ROTC) programs

**FINAL DISPOSITION:**
Internships we can use course section type to get. We need to figure out a way to calculate the certification credit. Explore the possibility of using the FETPIP data to get the active duty students. Ask legislature about exempting all hours for active military.
