## Executive Summary

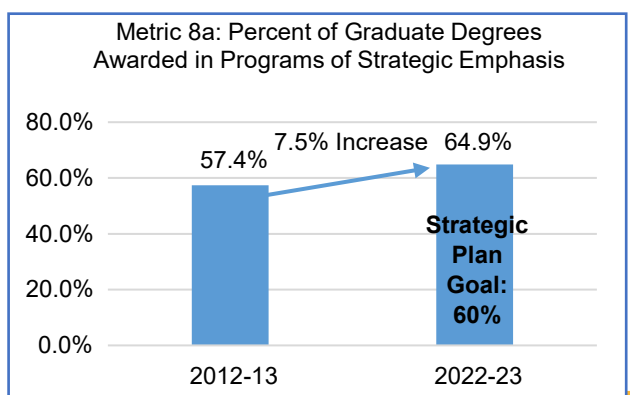

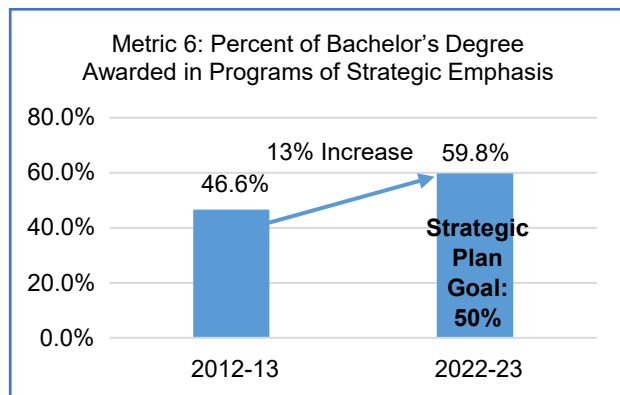

In January 2014, the Board of Governors adopted the Performance-Based Funding Model. Proviso language in the General Appropriations Act directed the Board of Governors to allocate performance funds based on certain metrics. In 2015, section 1001.92, F.S. related to State University System Performance-Based Incentives was created in the implementing bill and created again in 2016 in House Bill 7029 (Ch. 2016-237, L.O.F.). In September 2016, the Board created Regulation 5.001 Performance-Based Funding. Since the implementation of the model, funding significantly increased in the first four years and remained level for five years. The legislature and Governor increased funding by \$85 million for the 2023-24 fiscal year and remained at that level for the current year.

Fiscal Year	State Investment	Institutional Investment	Total
2014-15	\$100,000,000	\$100,000,000	\$200,000,000
2015-16	\$150,000,000	\$250,000,000	\$400,000,000
2016-17	\$225,000,000	\$275,000,000	\$500,000,000
2017-18	\$245,000,000	\$275,000,000	\$520,000,000
2018-19 - 2022-23	\$265,000,000	\$295,000,000	\$560,000,000
2023-24	\$350,000,000	\$295,000,000	\$645,000,000
2024-25	\$350,000,000	\$295,000,000	\$645,000,000

In the 11 years since the Performance-Based Funding Model was implemented, Metrics 1 through 6, and 8a have shown significant improvements while the University Access Rate, Metric 7, remains consistent with Florida’s population. Metrics 5 and 4, related to retention and graduation rates continue to show improvement and are nearing their strategic plan goals.

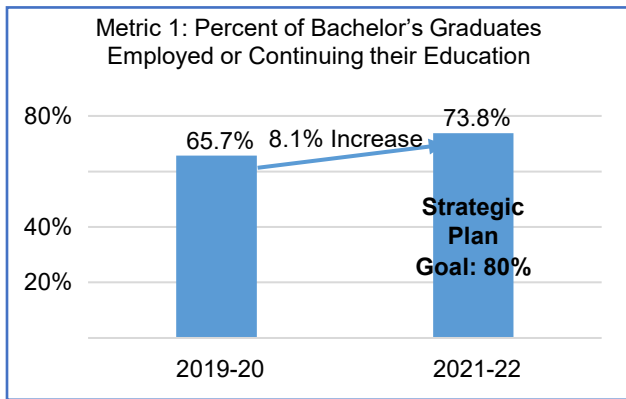

The SUS has exceeded the strategic plan goal for metrics 6 and 8a, related to bachelor’s and master’s degrees in programs of strategic emphasis.

One change to this year’s Performance-Based Funding (PBF) Model was approved by the Board in November 2023. The 10-point benchmark for Metric 2, Median Wages of Bachelor’s Graduates Employed Full-time One Year After Graduation was raised to match the strategic plan goal to \$43,200. The increments between each benchmark were kept at \$2,500, which adjusted all of the benchmarks up. The Board agreed to normalize scores in the first year of the new benchmark, however, normalizing the scores was not necessary as every university improved their score over the previous year or remained at a score of 10 points for Metric 2.

Metrics 1 and 2 continue to show improvement. The SUS has exceeded the strategic plan goal for metric 2.

One university will be required to present and complete a student success plan in order to receive the state portion of their allocations. Florida Gulf Coast University scored below 70 points. The institution will be required to present a student success plan to the Board for consideration at the September 2024 meeting. The plan should specify activities and strategies for improving the institution’s performance metrics. If the plan is approved, FGCU shall receive up to 25% of its state’s investment at the time of approval. The Board will monitor the institution’s progress on implementing the activities and strategies specified in the plan. Monitoring reports for FGCU will be considered by the Board at the March 2025 meeting. If it is determined that the institution is making satisfactory progress on implementing the plan, FGCU shall receive up to the balance of 50% of their state’s investment. If the institution fails to make satisfactory progress, FGCU will not be eligible to have their full amount of state investment restored.

Univ.	Eligible Allocation
FGCU	\$7,684,630

Any state investment funds remaining shall be distributed to the top three scoring institutions based on the total number of points of the eligible institutions. This year, there is a tie for the top 3 scores (FIU, FSU, USF and UF).

There are four universities on the watchlist this year. Any institution with a score lower than the previous year’s score for two consecutive years must submit a student success plan to the Board in order to be eligible for their proportional amount of the state’s investment. A university is on the watchlist when their score is lower than the previous year’s score for one year. FAMU, FL Poly, UCF and UNF are on the watchlist this year. If their score drops again next year, they will be required to submit a student success plan in order to be eligible for their state investment.

## Performance-Based Funding Model: Allocation Methodology

- ❖ Top 3 (including ties) receive 100% of their allocation of state investment.
- ❖ Universities with a score the same or higher as the previous year receive 100% of their allocation of the state investment.
- ❖ If a university's score decreases for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment after presenting/completing a student success plan:
  - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to 50% of their allocation in August
  - If goals are met, the university may receive up to the balance of their allocation of the state investment 6 months after the student success plan is presented (March)
- ❖ Universities scoring below 70 points could receive up to 50% of the state investment after presenting/completing a student success plan:
  - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to half of their allocation in August
  - If goals are met, the university may receive up to the balance of half of their allocation of the state investment 6 months after the student success plan is presented (March)
  - Any institution that fails to make satisfactory progress shall not have its 50 percent of the state's investment restored, and any state investment funds remaining shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.
- ❖ The remaining 50 percent of each institution's state's investment shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.

### Drop (2 years)

If a university's score decreases for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment after presenting/completing a student success plan. For the current year, there are no scores that have dropped 2 consecutive years. 2024 scores are compared to 2023 actual scores.

### Score below 70: FGCU

If a university's score is lower than 70 points, the university may receive up to 50% of their allocation of the state investment after presenting/completing a student success plan.

### Watch List: FAMU, FL Poly, UCF, UNF

If any of these universities' scores decrease again next year, the university may receive up to 100% of their allocation of the state investment after presenting/completing a student success plan.

Universities on the watch list have a drop in score for 1 year. 2024 scores are compared to 2023 actual scores.

### Top 3: FIU, UF, FSU and USF (tied)

The remaining funds of each institutions' state's investment shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions. This year, FSU and USF tied for the 3<sup>rd</sup> highest score.
