BACKGROUND INFORMATION

The State University System *2025 Strategic Plan for Online Education*, which was adopted by the Board of Governors in 2015, continues to guide the delivery of online education in the SUS and provides a pathway for ensuring that quality online instruction and services are provided in an efficient and effective manner.

The Board's progress in implementing the Strategic Plan is annually monitored through a System-level report. The three major elements of the *2025 Strategic Plan*, Access, Quality, and Affordability, remain the themes that guide the reporting in the Annual Report.

The *2023 Annual Report for Online Education* was reviewed and approved by the Innovation and Online Committee at its June 27th meeting.
