

**Performance-Based Funding Proposed Changes
October 30, 2024**

I. Metric 9b1 – Academic Progress Rate, 2nd Year Retention for FTIC with a Pell Grant (Alternative metric for Florida Polytechnic University only)

Issue: Metric 9b1 was created for FL Poly to replace Metric 9b (Six-Year Graduation Rate for Students who are Awarded a Pell Grant in their First Year) until FL Poly had two-years' worth of data to participate in Metric 9b. FL Poly now has the required amount of data to be included in metric 9b to be able to measure Excellence and Improvement.

Recommendation: Remove Metric 9b1 from the Performance-Based Funding Model; include FL Poly in Metric 9b effective with the 2025 Accountability Plan.
